SAFFO TUBI MOHAMED

SOFTWARE ENGINEER
Phone: +254 17 996 266
Email:tubisaffo@gmail.coom

PROFILE:

I am a resilient, self-driven student currently undertaking a Bachelor's degree in Computer Science. I am hardworking and when given the chance will prove myself . I have the ability to handle highly stressed situations and unexpected errors in an efficient manner.

PROFESSIONAL BIO:

As a dedicated and innovative software engineer, I bring a wealth of knowledge and a passion for continuous learning to the world of technology. With a keen interest in solving complex problems and a commitment to staying at the forefront of the ever-evolving field of software development.

I possess a strong foundation in a variety of programming languages, including Java, JavaScript and is adept at leveraging modern frameworks and tools to streamline development processes.

This commitment to ongoing education not only enhances my technical abilities but also ensures that I bring fresh and innovative perspectives to every project.

I believe in the power of collaboration and consistently contribute to creating a positive and productive work atmosphere. My ability to work seamlessly with cross-functional teams ensures that project goals are not only met but often exceeded.

EDUCATION

Bachelors in Computer Science**, UMMA UNIVERSITY**

In computer science, I have undertaken Relevant classes such as:
- -Data Communication and Networks
- -Object Oriented Programming (with C++, JAVA)
- -System Maintenance and Support (Practical's)
- -Internet Applications Development (with HTML, CSS, *JAVASCRIPT)

Currently I am a 3rd year looking forward to graduate in 2024

SKILLS

SOFTWARE SKILLS
- Proficient programming languages -HTML, CSS, C++
- Basic knowledge of - Python, Java, C, (Django), Javascript

CERTIFICATIONS
- Python for pen testers-CODERED(Completed)
- Data Science with Python-DATACAMP (60% Completed)

SOCIAL SKILLS

- Effective interpersonal skills
- Conflict resolution
- Excellent conceptual and analytical skills

INTEREST

Technology
Through Programming, I appreciate technology hence I have created several mini-projects e.g., URL shortener(with python), created a simple website (Django) aside from school projects.
Basketball
At UMMA University's basketball team I play as a forward and also serve the team as the discipline captain where I perform leadership duties.
